**JUNE 28 – JULY 31, 2015**

**Aerial view of Oriel College, Oxford**

This will be the **46th annual** summer program offered by Northern Illinois University and Oriel College featuring courses on the undergraduate and graduate levels that are designed to take advantage of the unique resources of the British setting, including the Oxford libraries, theaters of London and Stratford-upon-Avon, and selected cultural, historical and scientific field trip sites. Faculty are accommodated close to students and dine in the same halls so that formal class meetings can be supplemented by individual tutorials and informal conversations. Enrollment in all courses is deliberately kept low in order to permit maximum interaction between students and faculty.

### **PROGRAM DATES**

Sunday, June 28 - Friday, July 31, 2015.

### **Oriel College**

The program will take place in Oriel College, founded in 1326 and considered to be one of the most beautiful of the 34 colleges that make-up Oxford University. Oxford is less than 60 miles from London and Stratford-upon-Avon, with frequent and inexpensive bus service to both cities. Cambridge, Canterbury, and other places with literary and historical connections are within 100 miles, and there is virtually no place in Britain or, indeed, Europe that cannot be visited on a weekend trip.

**Entrance to Porter's Lodge**

## INSTRUCTION

The courses will be taught by NIU faculty with Dr. L. G. Black, a Fellow of Oriel College, providing lectures for the Shakespeare courses.

## PROGRAM AUDIENCE

Although this is an academic program, it has been designed with a variety of audiences in mind. Non-traditional students (i.e., professionals, individuals with an interest in this subject matter, etc.) as well as currently enrolled students are encouraged to participate in this program. All participants will receive academic credit, and students who are not currently enrolled in an academic program at NIU will be enrolled as visiting students (at the undergraduate level) or Students-at-Large (at the graduate level).

## ACADEMIC CREDIT

Each subject is offered on four levels--general undergraduate, undergraduate major, graduate, and advanced graduate--with reading lists and assignments appropriate to each course level. Students should register for the course number appropriate for their situation or needs. All courses carry 3 semester hours of credit, with the exception of BIOS 305 and BIOS 411/511 which carry 4 semester hours of credit. Students must enroll for two courses. Exceptions regarding the number of courses allowed must be reviewed and approved by Professor Holbrook, College Coordinator.

## CLASS SCHEDULES

Classes will meet at hours to be announced (typically, two 2-hour sessions a week for undergraduates with additional conferences for graduate students) Mondays through Thursdays, leaving three-day weekends for study or travel.

## ACCOMMODATION AND MEALS

Students will reside in modern single rooms in Oriel College's James Mellon Hall. Breakfast will be served daily and dinner will be served each Sunday through Wednesday in the 17th-century Hall. Students will be responsible for the purchase of all lunches, as well as dinners on Thursday, Friday and Saturday. Students will have access to the College Library and other Oxford libraries. The college has a laundry room, and dry cleaning is available nearby.

## FIELD TRIPS

The program cost includes one trip to Stratford-upon-Avon with tickets to a Royal Shakespeare Company performance, and other trips to sites of academic interest, to be announced. Optional trips, at the students' expense, will also be offered, and students will be encouraged to travel on their own.

**Dr. Gabriel Holbrook (Biological Sciences, NIU)** serves as the College of Liberal Arts and Sciences Coordinator for the Program. He has a primary research interest in plant physiology and has published numerous research articles on photosynthesis by plants, algae, bacteria and biofuel.

### EXPLORATION OF PLANT SCIENCE

These courses will be taught by Professor Holbrook of NIU. BIOS 101 is an introductory plant biology course suitable for students majoring in subjects other than biological sciences. All courses take advantage of the University of Oxford Botanic Gardens, which are a short distance from Oriel College. BIOS 305 will explore the basic anatomy, morphology and physiology of plants. These will be related to an evolutionary sequence, considering the selective advantage of structures and functions unique to each group of plants in adapting to their habitats. In BIOS 411/511, which can be taken for undergraduate or graduate credit, detailed attention will be given to the physical and chemical aspects of the “inner workings” of terrestrial and aquatic plants. The courses may also feature guest lectures on selected topics by members of the Oxford University Plant Science Department. Related field trips may include visits to the Royal Botanical Gardens at Kew, to the marine environments of the southwest coast of England, and to one of the oldest agricultural research institutions in the world, Rothamsted Research located to the north of London.

**Dr. L. G. Black (English, D. Phil. Oxford University)** is a Fellow of Oriel College. His special research interests are Shakespeare and the English Renaissance. He is the Editor of *Notes & Queries* (founded 1849). Dr. Black will participate in classroom discussions and tutorials with NIU students attending the Oxford program.

**Dr. Alexandra Bennett (English, NIU)** teaches Shakespeare, Renaissance literature, and modern British and American drama. She is the editor of two seventeenth-century plays by Margaret Cavendish (*Bell in Campo* and *The Sociable Companions*), and has written extensively upon the works of Renaissance female playwrights. She is also an actor, and thus has a particular interest in studying dramatic works as performance-based texts.

## SHAKESPEARE

What better place to study the writer whose very name is synonymous with English literature than in one of the cities where his plays were first performed? The goal of this course will be to explore the range of literary, theatrical, cultural, and historical contexts that inform Shakespeare's plays. The course will examine a selection of the plays by focusing primarily, though not exclusively, on questions of performance and identity. Since these texts were created to be heard and seen rather than silently read, we will explore the ways in which identity itself (both for individuals and the community as a whole) was intertwined with performance in both the plays and Shakespeare's England. All of the plays we will study will be selected on the basis of what is onstage at various venues in Oxford, Stratford-upon-Avon, and London; thus, students will be able to experience performances of the plays we will study. Individual programs of study will be set in consultation with individual students, depending on the course levels selected.

### BRITISH CHILDREN'S LITERATURE

"So I ran away to Kensington Gardens and lived a long long time among the fairies":

Each author also renders England in a different time period, from C17th in *The Gilded Mirror* to "modern" in *Harry Potter*. ### LITTLE ENGLAND OR GREAT BRITAIN?

Britain has a proud and rich political history. At one point in time, Britain's military, political, and economic influence was so vast that she had an empire that spread from one side of the globe to the other. But two world wars later, and the subsequent rise of other nations (the US, China, Germany) has left Britain far less influential. In this course we will explore Britain's place in the world and some of the contemporary issues with which she is wrestling. On the home front, devolution and calls for independence leave Scotland on the verge of leaving the kingdom rather less united, whilst calls for a referendum on EU membership could leave Britain on the outside of European affairs. What Britain has given to the world, and what she can potentially offer, are concerns that define her past, present, and future. To better grasp British influence we will supplement our Oxford seminars with field trips to the Houses of Parliament, the British museum, and the Imperial War Museum.

### **APPLICATION AND ADMISSION PROCEDURES**

For undergraduate students to be admitted to the program, an applicant's official transcript must be on file in the NIU Study Abroad Office (SAO). Students who are currently enrolled at NIU, or who have previously enrolled at NIU, do not need to request an official transcript - the SAO will make this request on behalf of the applicant. Students who want to participate in the program and earn academic credit from NIU who have **not** previously enrolled at NIU, or who are not **currently** enrolled at NIU, should ask the registrar at their home institution to forward an official transcript as soon as possible to the SAO. (Student-issued transcripts and photocopies are not acceptable.)

Students who desire to obtain graduate credit must either be admitted to a graduate program within the NIU Graduate School, or be admitted to the status of a "student-at-large" (SAL) within NIU's Graduate School. For students to be admitted to the program for graduate credit, the applicant's official transcript must be on file in the NIU SAO. However, students who will participate in the program in order to earn academic credit as an SAL (students who have not currently enrolled nor previously enrolled at NIU) must provide a copy of transcript or diploma from the baccalaureate institution and from any institution at which graduate credit has been earned. This document must be provided to NIU before a student can be admitted as an SAL to the program. (Student-issued transcripts and photocopies are not acceptable.)
